Daniel Da Cunha Bueno

Software Engineer| @BSource
Americana, São Paulo, Brazil

Summary

Application Developer in a wide variety of business applications. Particularly interested in client/server, Web Solutions and relational database design using MS-SQL Server. Always interested in Microsoft .Net projects.

I am also enthusiast agile methodologies like SCRUM, XP, MSF Agile, and want an MBA for the next year of IT governance based on ITIL V3 or higher.

Specialties: Application Developer, Developer Manager, Developer Architect, Logistics

Experience

BSource Consultoria em Sistemas
Engenheiro de software
October 2014 - Present (11 years)
Americana, São Paulo, Brasil

In my current position, I'm like a full-stack developer involved with the following technologies:

- Xamarin Forms
